VISUAL APPEARANCE

The product may reveal various wrinkles due to the combination of Elasticity of the covering, characteristics of the interior construction and the design of the product.

Products with Visual Appearance listed as High or Medium would require higher degree of care, where seats and back cushions may require fluffing and plumping more often than Products with Visual Appearance listed as Low.

NOTES

- Designed by Natuzzi Design Center.
- Date of launch: 2024.
- Mindful is a visionary sofa that transcends the ordinary. Inspired by the harmony of body movement, this masterpiece redefines the art of relaxation. Our designers and engineers have meticulously crafted a game changing sofa that for the first time combines in a single product all the latest innovations in motion technology.
- Available in leather or fabric.
- In leather the model is available starting from cat. 15 (Le Mans).
- Modular sofa available in linear and sectional versions with 45' Corner, Chaise Longue and round shaped terminal
- The corner module has been designed with a concave wedge to improve its comfort and provide better functionality without compromising the design.
- Complementary coffee tables and table top collection: Two stylish in-between seats side tables (vers. 821/823) seamlessly integrating with your seating arrangement while providing a chic table top, furthermore an organically shaped side armrest table (vers. 816/817). Available in upholstery price list.
- Central Coffee table with a convenient lift-up top, storage drawer and castors (Q083001XNA). Accent round side table allowing for versatile use (Q083002XNA). Both available in furnishing price list.
- Model is not available with article Misterbianco (cat. 30).

NOTES

- Mindful's innovative mechanism enables 3 special functions: 365, Micromobility and triple motion with Zero Gravity.
- The leather insert (on the seat and backrest) and piping can be tone-on-tone or in contrast. If the main covering chosen is fabric the contrast piping can be done in leather CAT 15 Le Mans, Cat 25 Status, Cat 30 Stromboli or Cat 40 Siena.
- "365" and Micromobility functions are innovative regenerative systems, consisting of intelligent electronic mechanism activated via remote control. "365" helps to synchronize breathing with heartbeat and Micromobility gently stimulate body muscles.
- Function "365": activated through preset button on the remote control. The function triggers the movement of the headrest and lumbar to arch the back and facilitate synchronization of breath and heartbeat. It is suggested to perform 3 times a day, with 6 breaths per minute for 5 minutes per session. This process helps practicing synchronization of breathing with heartbeats, reducing stress.
- Function "Micromobility" activated through preset button on the remote control. The function can be started only once Zero Gravity is reached by triple motion. Once function is on, the sofa moves imperceptibly. It acts by slowly tilting seat and footrest simultaneously with micro movements, that, while the user is in a resting position, keeps muscles active improving blood circulation, contributing to a state of relaxation.
- Triple motion mechanism with independent control for headrest, lumbar and footrest.
- Zero Gravity is a reclining position activated through a triple motion mechanism. This position can be achieved through remote control (in QXX versions) or keypad (in QXX and NXX versions), by fully opening the seat and achieving full body extension, aligning the feet with the heart. This way, an optimal body position is reached, facilitating blood circulation. Zero Gravity is the starting position for Micromobility preset.
- All QXX versions beside Triple Motion/Zero Gravity, include "365" and Micromobility functions. "365" and Micromobility are exclusively operated by a remote control (sold separately, version 831). One remote control can manage up to 6 different seats separately.
- The NXX versions exclusively feature the Triple motion mechanism with Zero Gravity, which can only be activated via a keypad positioned on the inner side of the seat.
- Battery kit vers. 830 can be ordered as optional only for NXX versions. Please note that one battery can operate only one mechanism. Versions QXX cannot support battery kit.
- Versions 715/716/045 don't have adjustable headrest function. Electric headrest is available on versions NXX and QXX. Manual headrest is available on stationary versions.
